The Oxford Handbook of the History of Linguistics

In the first part, written in Portuguese language, authors explore the use of the term "Albanian" to refer to the language spoken by the Albanian people in the region of southeast Europe. This is a historical and cultural approach to the study of the language and its evolution over time. The later part of the book is written in English and focuses on the language's current status, including its grammar, syntax, and phonology.

The History of English in a Social Context

The book is divided into three main sections: the sociolinguistic context of English, the language of the mass media, and the language of the internet. The first section examines the social factors that have influenced the development of English, such as the influence of immigrants and attitudes towards diversity. The second section covers the role of English in the media, including the rise of the internet and social media. The final section looks at the future of English, including the impact of globalization and the role of English in a globalized world.
